Report of Principal and School Improvement Council

Castle Heights Middle School continues to believe in a successful learning process for all of its students. Data continues to indicate that the school is operating at a high level in meeting the needs of different groups and levels of students. The school seeks to promote academic growth within a framework that recognizes the unique developmental needs of middle level students.

Examples of this goal include Phoenix Bound, which allows overage eighth graders to earn high school credit. In addition, advanced students also continue to earn high school credit in algebra, geometry, and English classes. Also in place is the co-teaching program in which content teachers and special education teachers plan and teach collaboratively to provide instruction that meets or exceeds grade level standards. Students are also supported by an academic assistance program that allows for flexible movement in and out of the program as student needs change. All programs are supported by technology resources throughout the building. The school also implemented a full theme-based summer enrichment program for students at a wide variety of levels.

Castle Heights operates on a system of beliefs that stresses the learning capabilities of all students and the strong interconnected support of staff, parents, and community to promote the safety and success of our students. This system was in evidence throughout the 2007-2008 school year.
